Keysafe is a niche tenancy vetting company based in Shropshire with its own unique style of referencing.

The Connect365 tenancy application process uses elements of open banking with the traditionally high standard of Keysafe's credit and ID checking.

You will experience the highest level of service and have a team of experts on hand for support.

This is more than simply fact verification. You will receive a service that goes beyond our usual focus to encompass risk assessment, turning the orthodox approach to tenancy vetting completely on its head.
