

For Sale Boards / To Let Boards & Commercial 'V' Boards

Many thanks for your enquiry regarding our sign service.

Our pricing structure depends on a number of factors. Some of our customers have their own signs and use us just for the service side of things. Others take advantage of our rental system where we produce the signs at our expense and maintain future stock levels. This has the advantage of reducing your initial expense. We can operate any system to suit individual needs.

We are based close to Huddersfield and over the years have established ourselves as the area's leading specialists in the servicing of Estate Agent Signage in the area radiating from our base. This includes Kirklees, Calderdale and parts of South Yorkshire plus districts in close proximity to these areas. Most of our fitters have been with us many years and we believe that there is no one else with a better knowledge of these districts than our fitters who are there week in, week out. Concentrated districts allow us to have our dedicated fitters working every day in areas they are fully familiar with, providing a quality and speed of service that other sign fitters are unable to achieve.

Our on-line ordering system means the majority of your instructions are completed the following day. Forty-eight hours at the latest. This has lots of useful tools to search property details, place, cancel and monitor all your orders from any device and receive e-mail updates of your jobs. Our office is manned every day and we are in constant touch with our fitters to solve any small problem that may occur. Emergency call out is available any time.

Being a small family company, established twenty-eight years ago, our aim is to build up a successful, long-lasting relationship with our customers. We are small enough to understand the individual requirements of our customers, but large enough to cope with the unexpected. This probably accounts for the reason that most of our customers have been with us for many years. We are on first name terms, understand them, and treat their business as an extension of ours.

We already provide our service to almost all of the leading Estate Agents in the districts mentioned and would welcome the opportunity of providing you with this service.

For us to produce signs at our expense on a rental basis, the cost will depend on size of board, number of colours, artwork required and any design costs. The price is also dependent on volume. To provide an exact cost will require more information

Or we would be happy to quote for service only of your own signs.

If you would like to discuss the various options and the costs involved, please free to give us a call.

Yours faithfully

C L Johnson
