

ViewMyChain is the UK's only data-driven chain management platform. Developed to radically improve the home moving process – through **transparency and visibility**.

ViewMyChain enables key stakeholders within a property transaction, including estate agents, conveyancers, and mortgage brokers, to stay up to date and effectively manage their chains.

It can help speed up transaction times by providing instant visibility of progress at each stage of the transaction for the entire chain, reducing the time spent chasing information, reducing fall throughs, achieving faster completions, and getting agents paid quicker. Overall, ViewMyChain provides a better experience for everyone involved.

Complete chain visibility...

Because sales progression isn't just about managing your own sale, it's about managing the chain.

Pre-populated chain links

Automatic milestone updates

Data-driven intelligence throughout the transaction

Identify delays within the chain

Receive fall through alerts

Collaborate in a property community hub

“ViewMyChain provides a solution to a problem that our branch & sales progression teams face every day. It harnesses the power of technology, improving visibility and communication throughout the property chain. ViewMyChain’s real-time updates on key milestones provide transparency and clarity to our teams, and its automatic chain building provides a real advantage. The offices currently using ViewMyChain have provided positive feedback and we look forward to continuing our rollout.”

**Jon Notley -
Group Commercial Director, Connells Group**
