

Never Miss Another Instruction.

Your agency answers every call, 24 hours a day, 7 days a week — branded to sound like your best negotiator.

The Problem

- Motivated buyers call at 10PM on a Sunday — and go to voicemail.
- Your competitor answers. They win the instruction. You never know what you lost.
- Your team is stretched — viewings, valuations, admin. They can't be everywhere.
- Every missed call is a potential £3,500–£5,000 instruction walking out the door.

The Solution

FlowProp AI is an intelligent voice receptionist built exclusively for estate agents. It answers every inbound call in your agency's name, qualifies the enquiry, books viewings against live availability, and delivers a clean summary with a next action to your team — automatically. No extra headcount. No missed calls. No lost instructions.

What It Does

■ Answers Every Call

24/7, including evenings, weekends and bank holidays.

■ Sounds Like Your Team

Fully branded voice — warm, confident, professional.

■ Books Viewings

Checks live calendar availability. No double bookings.

■ Structured Summaries

Caller name, intent, transcript and next action logged instantly.

■ Integrates With Your CRM

Works with Reapit and connects via Zapier to your existing tools.

■ You Stay In Control

Only says what you've approved. Escalates anything outside scope.

Simple, Transparent Pricing
