[www.i4TGlobal.com](http://www.i4TGlobal.com)

i4T Global is here to disrupt the **Field Service Management (FSM)** industry with an end-to-end innovative digital platform empowering Authorized Service agents, Field Service Suppliers and Property Occupants with Efficiency, Transparency, Compliance, and Safety at every service touchpoint.

**Keep Updated and Reduce Your Risk!**

**Field Service Management Done Right,  
First time, Every time!**

Offering Transparency and Compliance to  
Authorized Service Agents for Property Maintenance  
including real-estate, facilities, strata, hotels & retail.

**"The Ultimate Property Maintenance Software, Trusted by Some of The  
Leading Real-Estate, Strata and Facilities Providers Around The Globe"**

The all-in-one Property Maintenance Software you have been looking for! Secured by Google cloud technology, 24/7 support and some of the most powerful integrations.

### **Application**

Simple workflows let you collaborate, automate & integrate everything from one Property Maintenance Management platform so you are always on top of your game.

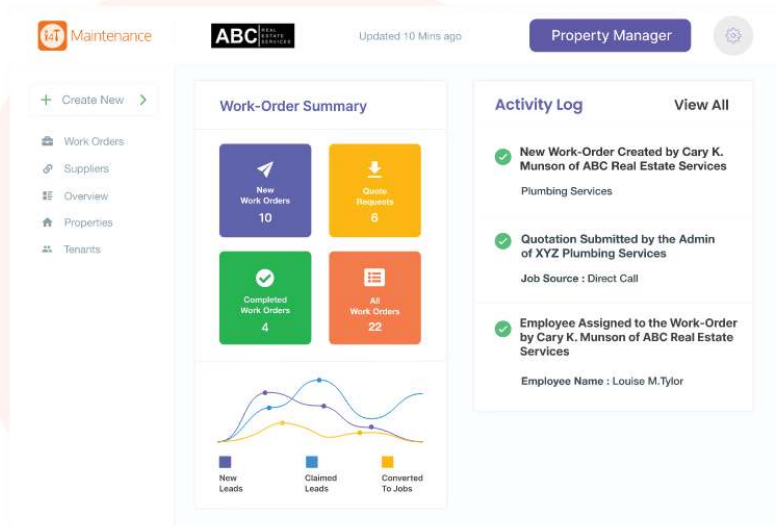

### **Communication**

Real-time two-way communication between Property Occupants, Authorized Service Agents and Field Service Suppliers ensures smooth service delivery.

### **Integration**

Integration with your favourite Property Management apps and Accounting Software allows simple data migration to make sure everything is synced with minimal need for data entry.

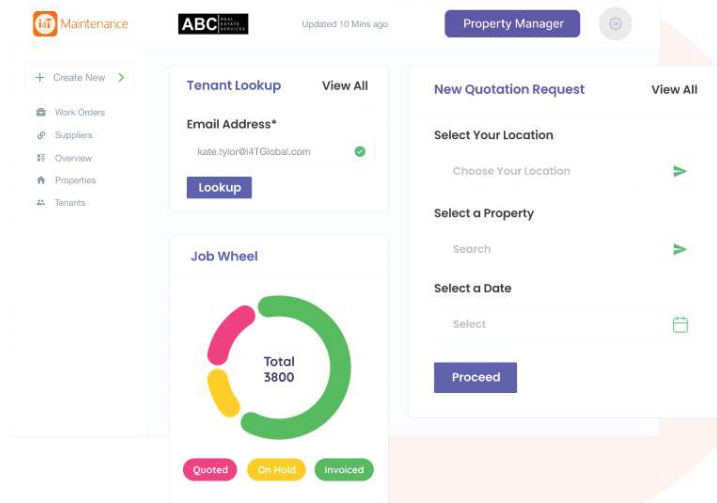

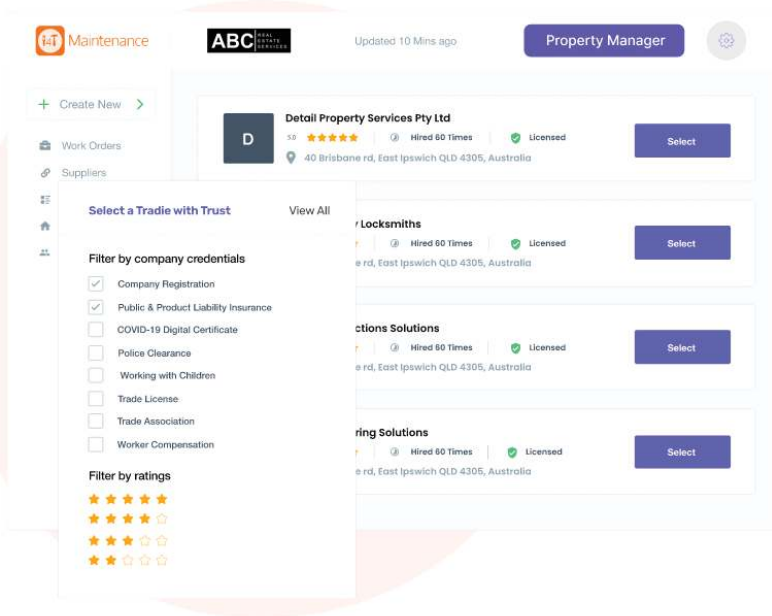

## Take control of all your Property Maintenance data at a glance

Never miss a beat! From new maintenance Work Orders to those in progress, completed and paid, the i4T Maintenance dashboard helps you manage your properties like a pro!

## Workflows that simplify even the most daunting FSM tasks

Add new tenants, update property info, schedule maintenance, request quotes and keep track of Work Order progress with a few clicks on i4T Maintenance – Property Maintenance Software.

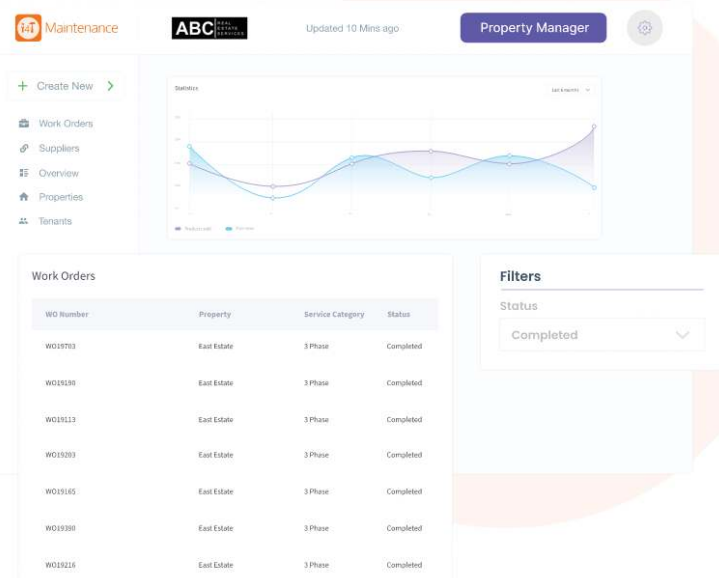

## Trusted Field Service Suppliers at your fingertips

Maintain a list of Field Service Suppliers or instantly find one when a new Maintenance Request comes through. Connect with [certified, licensed and insured professionals](#) to get the Work Order delivered to perfection.

## Powerful insights to keep you on top of your compliance game

Handle disputes with [Property Occupants](#) (landlords or tenants) with visual proof of completed Work Orders and keep a record of payments made to Field Service Suppliers.

**An efficient and easy way to manage your business on the go!**

## **The Best Field Force Management Software for Field Service Suppliers**

A revolutionary Field Force Management platform for Field Services Business Owners to deliver end-to-end service excellence and customer experience.

## **"End-to-end Field Force Management software fuelled by Efficiency, Transparency, Compliance and Safety all the way through"**

If you run a Field Services company and think it's time to future-proof your business with an all-in-one Field Force Management tool, you have come to the right place. A great solution is more than just tech. It has bits and pieces that all fall into place to deliver one unified and satisfactory experience. That's what i4T Business is all about.

Suitable for individual Field Service Technicians (e.g. Plumbers, Electricians, HVAC etc.) efficiently providing specialized Field Services to Property Occupants & Authorized Service Agents.

Specifically designed for fast-growing Field Service Suppliers with multiple Employees across multiple Field Services (e.g. Plumbing, Electrical, HVAC etc.) aiming to transform their business to the next level!

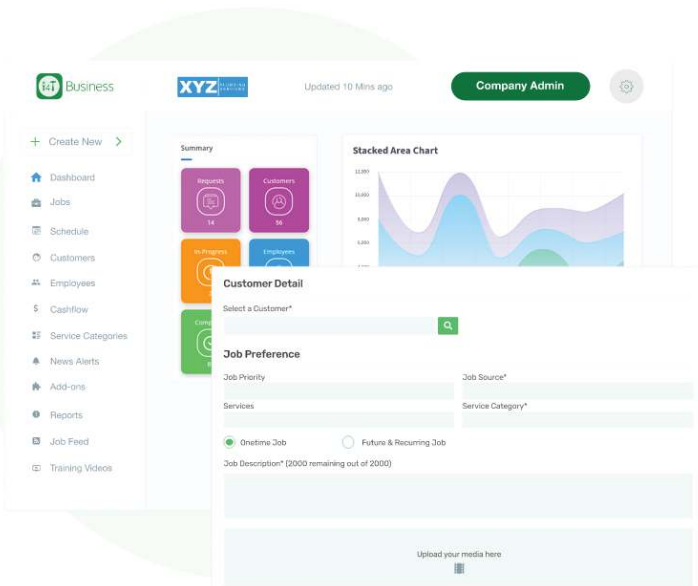

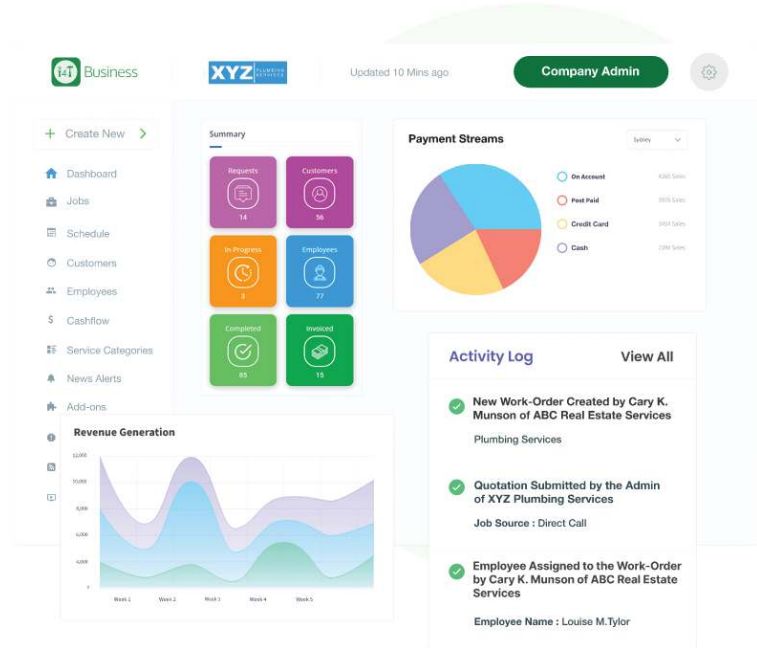

Excellent for Field Service Suppliers operating across multiple Field Services (e.g. Plumbing, Electrical, HVAC, Fire & Safety etc.) delivering to Property Occupants by managing Subcontractors and Employees.

## All information available at a glance with i4T Business dashboard view

i4T Business dashboard gives you complete visibility into your business workflows, from new Quote Requests to job progress, paid or pending invoices and cash flow reports, everything in one place on your Field Service Supplier Management app.

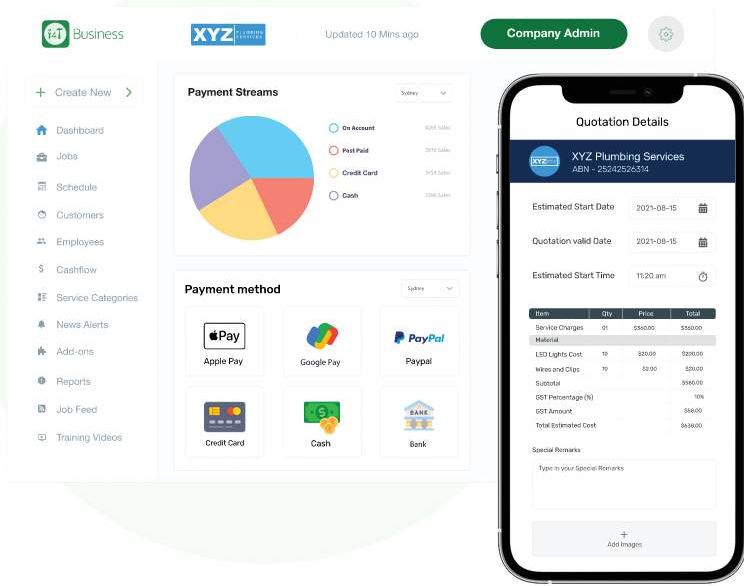

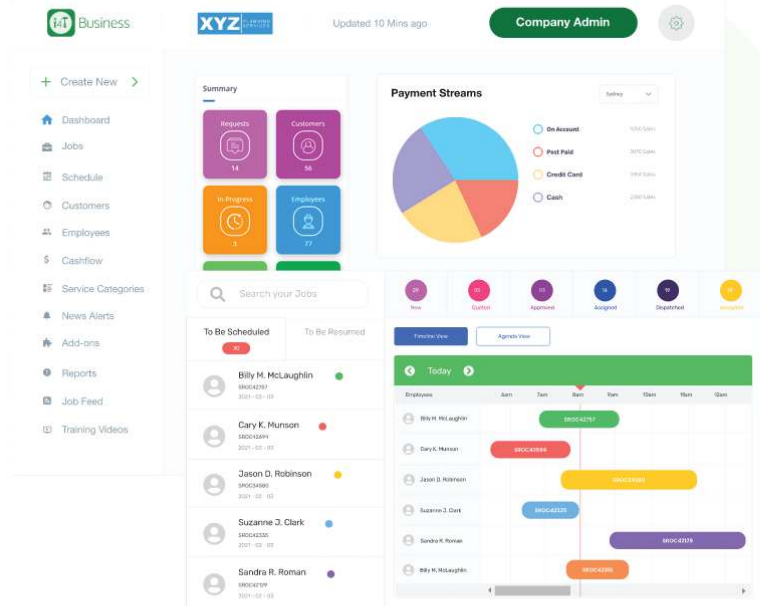

## Adding new entities is easier than ever!

Add new Customers, Employees or Jobs to the system in just a few clicks, anywhere, anytime. With everything in one place, i4T Business takes accessing and sharing information to a whole new level.

## Scheduling and Dispatching Jobs now at your fingertips

Being there when you promised means everything to Property Occupants hiring you!

Never miss an appointment again! Sort out employee availability well in advance with simple job scheduling and dispatching features.

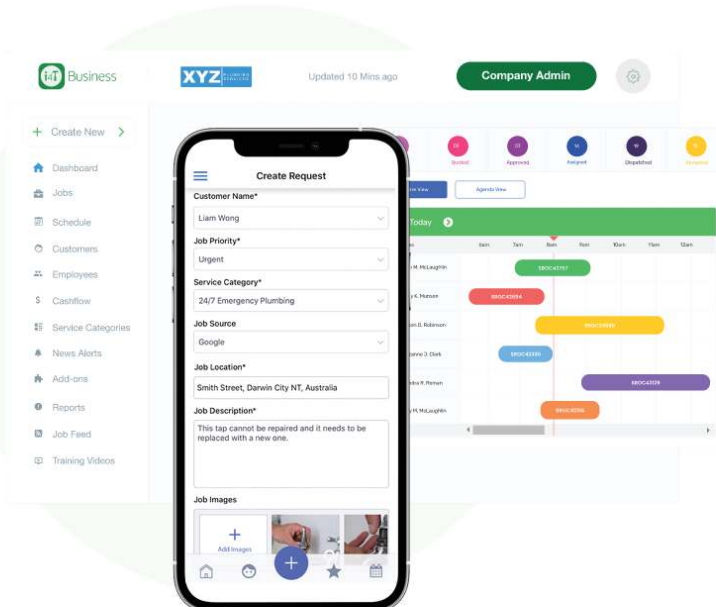

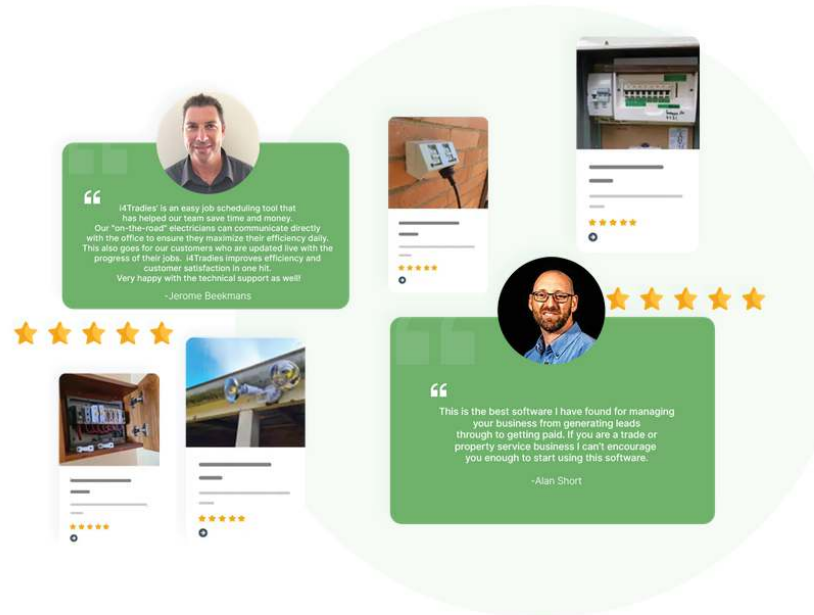

## Get quotes approved and invoices paid without the paperwork

Quickly creating detailed quotes and getting them approved from customers is a matter of a few clicks now. Not only this, once the job is done, electronically invoice your customers to get paid on the spot!

## Social proof is everything! Create one for your business.

i4T Business lets you capture Before and After images of the Jobs and create an impressive portfolio, showcasing your best work with real customer ratings as a cherry on top!

Share these on social media to strengthen your brand identity or on your website to drive more traffic and generate leads!

## Get your team on board with the new workflows

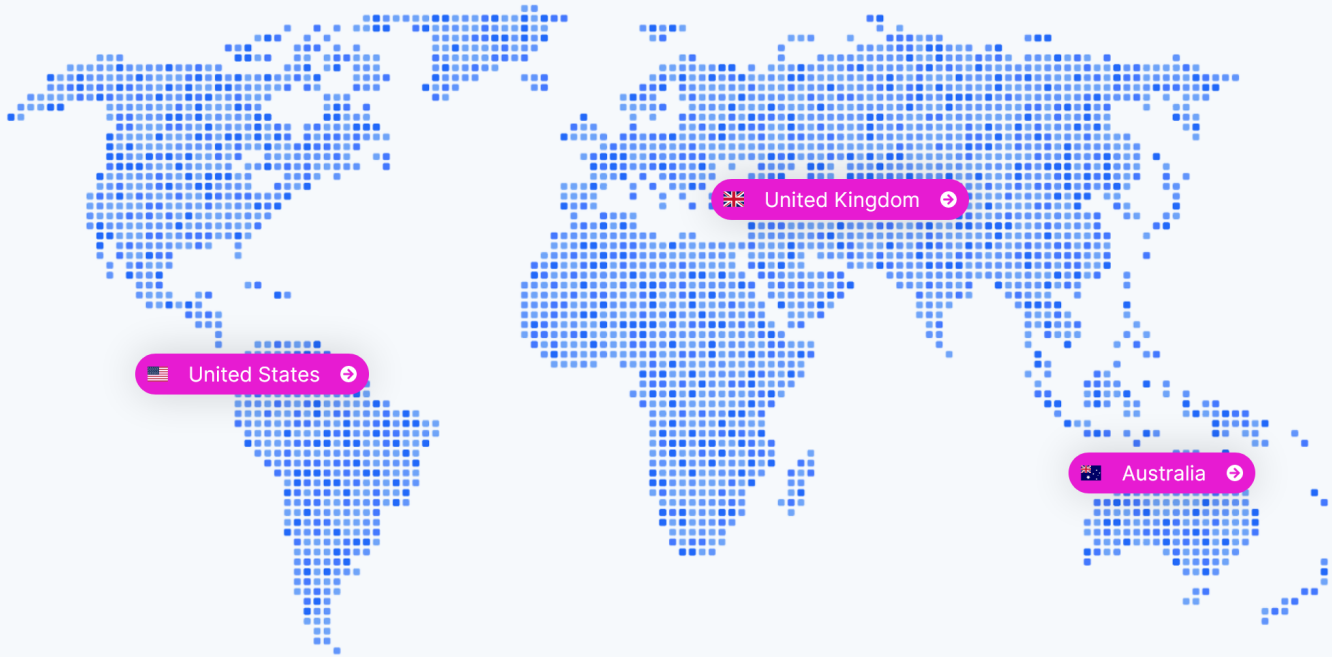

The dedicated i4T Employee App lets your employees take control of their Assigned Jobs right from their mobiles. This cuts down the travel time between the site and the office, improves service delivery and efficiency in the field and keeps all stakeholders in sync with real time Job updates.

**Empowered employees = Satisfied customers!**
